

G.I. CLEANSE

Good Herbs G.I. Cleanse is made with pure unaltered chemical-free natural herbs that provide support against harmful parasites. Parasites come in many shapes and sizes some may compromise the bodily functions. G.I. Cleanse contains a proprietary herbal blend of organic or wild-crafted herbs that promote a healthy intestinal environment.

BENEFITS OF G.I. CLEANSE

A parasite is any organism that lives and feeds off of another organism. When I refer to intestinal parasites, I'm referring to tiny organisms, usually worms, that feed off of your nutrition.

Some examples of parasites include roundworms, tapeworms, pinworms, whipworms, hookworms, and more. Because parasites come in so many different shapes and sizes, they can cause a very wide range of problems. Some consume your food, leaving you hungry after every meal and unable to gain weight. Others feed off of your red blood cells, causing anemia. Some lay eggs that can cause itching, irritability, and even insomnia. If you have tried countless approaches to heal your gut and relieve your symptoms without any success, a parasite could be the underlying cause for many of your unexplained and unresolved symptoms.

There are a number of ways to contract a parasite. First, parasites can enter your body through contaminated food and water. Undercooked meat is a common place for parasites to hide, as well as contaminated water from underdeveloped countries, lakes, ponds, or creeks. However, meat is not the only culprit. Unclean or contaminated fruits and vegetables can also harbor parasites. Some parasites can even enter the body by traveling through the bottom of your foot.

10 Signs You May Have a Parasite

1. You have an explained constipation, diarrhea, gas, or other symptoms of IBS
2. You traveled internationally and remember getting traveler's diarrhea while abroad
3. You have a history of food poisoning and your digestion has not been the same since.
4. You have trouble falling asleep, or you wake up multiple times during the night.
5. You get skin irritations or unexplained rashes, hives, rosacea or eczema.
6. You grind your teeth in your sleep.
7. You have pain or aching in your muscles or joints.
8. You experience fatigue, exhaustion, depression, or frequent feelings of apathy.
9. You never feel satisfied or full after your meals.
10. You've been diagnosed with iron-deficiency anemia.

Wormwood

It invigorates the whole digestive process and expels worms

Papaya

It contains enzymes that digest out parasites

Pumpkin

Its bitter compounds can expel many intestinal parasites including round and tapeworms

Black Walnut Hull

It is used as a powerful antiseptic and germicide as it oxygenates the blood and rids the body of worms and parasites as it corrects constipation or diarrhea

Cloves

It kills parasites and eggs
